## Objective

I seek challenging opportunities where I can fully use my skills for the success of the organization.

## Experience

### R&D centre

*May, 2017 - February, 2018*

English tutor for kids.

I had four groups with 12-15 students in each to teach them basics of english.

### M-style ABC

*September, 2019 - August, 2020*

Junior web developer.

Worked on already running website to fix bugs and to add new features to improve website.

### Radius centre

*November, 2020 - April 2021*

Python tutor.

It was a private programming school and I had 3 groups with 10-12 students in it. I used to teach them the most popular and mostly demanding programming language - Python.
